

## Mini Wave Reflector® Trapezoidal Reflectors

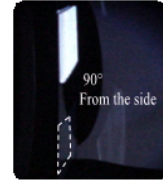

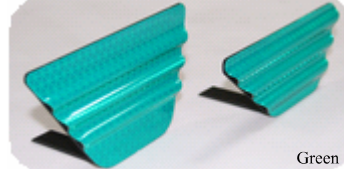

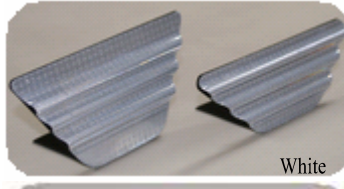

- Reflective Part: Mini Wave Reflector, ultra-high-luminance, flexible, wave-shaped reflective sheet.
- L-shaped attachment piece: Flexible (shock-absorbing/nonshattering), strong, special urethane elastomer.
- Easy installation with bolt, adhesive, or anchor (available in three types)
- No shattering in a smash – prevention of secondary incident, ease of forensic and cleaning works.

➤ Reflector and L-shaped attachment piece are made of flexible urethane elastomer. They absorb impact and buffer the weight of snow, and snap back to their original shapes.

### Ultra-wide angle Reflector Types

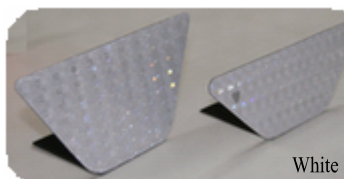

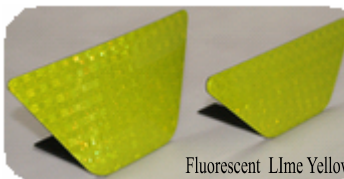

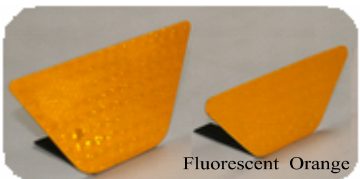

Product Type	Product Code	Size: W x L x H	MWII Reflector Colors
Trapezoidal Reflectors Using Mini Wave Reflector II	MWII - Gr - A - (color)	138 × 60 × 67	White, Yellow, Red, Orange, Green, Blue
	MWII - Gr - BC - (color)	138 × 60 × 48	White, Yellow, Red, Orange, Green, Blue

Even if the light source is directly perpendicular, the reflector demonstrates high-level of wide angle reflection performance. (Mini Wave Reflector)

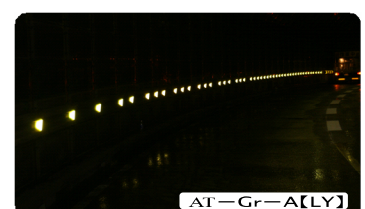

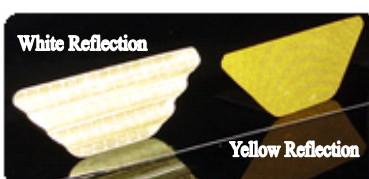

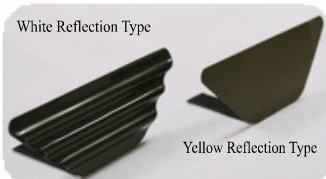

### Fluorescent colors Types

Product Type	Product Code	Size: W x L x H	Prism Reflective Sheet Colors	Notes
Trapezoidal Reflectors using Wide-angle Prism Reflective Sheet	AT - Gr - A - (color)	138 × 60 × 67	White, Fluorescent Orange, Fluorescent Lime Yellow	Fluorescent colors are of the grade called "ten- year weather resistant"
	AT - Gr - BC - (color)	138 × 60 × 48	White, Fluorescent Orange, Fluorescent Lime Yellow	

### Landscape colors Types

Product Type	Product Code	Size: W x L x H	MWII Reflector Colors	Notes
Trapezoidal Reflectors Landscape colors	MWII - Gr - BC (color)	138 × 60 × 48	Dark brown, Dark gray, Gray beige	White reflection/wave-shaped
	AP - Gr - BC (Black)	138 × 60 × 48	Black	Yellow reflection/flat

### Manufacturer of Wave Reflectors:

NTW Co.,Ltd.

10-5 Minami-Kashiwachuo,  
Kashiwa-city, Chiba 277-0075 Japan
